

ABOUT

I'm currently on sabbatical.

My past experiences in crypto, product, and hospitality have taught me to be resourceful, service-oriented, and empathetic towards customers. Crypto encouraged me to embrace weirdness and develop persistence alongside innovation. Hospitality shuttled my attention to the customer experience and refined my ability to be observant, iterative, and detail-obsessive. I continually strive to integrate these philosophies into my work.

As for the future, I'm currently exploring how my skills play into the world of craft coffee, hospitality tech, and deep technology.

EXPERIENCE

- Provable (formerly Aleo) | Product Lead**

Jan 2023 - Mar 2024
